1. STORY- A NARRATIVE

The story is about character in a specific context who suffers from sleep disorder and how he come across the app "Resting Panda" which helps him to solve his problem .

STORY

Aman Dhaka is a student of 12th standard who is preparing for most prestigious engineering exam i.e. JEE. He is a short tempered and introvert boy but always ready to help. He is a man of principles and his ultimate aim is to get admission in IIT. To achieve his aim he take lot of pressure, stress and even don't sleep properly.

One day he got exhausted and he put his foot down. He decided to give up everything and he started crying. Then one of his friends came to him and asked him what is the issue.

STORY- CONTINUED

He told him everything about what he was going through. His friend suggested him to meet psychiatrist. He went to the psychiatrist and explained him everything in detail. The psychiatrist highlighted that sleep disorder is the root cause of whatever he is going through. He suggested him to take proper sleep and meditate. He went back home and searched for methods for proper sleep where he came across "Resting Panda" application which changed his whole life. He started using this application in his daily life.

STORY- CONTINUED

The app provides him soothing sounds to sleep early in the night and wakes him up early in the morning by setting up customized alarms which records snorting sounds and rings at the appropriate time. The app also motivates him to meditate.

Now he is living happy and prosperous life. He sleeps well which helps him to achieve sound mind and relieve stress. He works more efficiently now. He is in great mental space and relishing his life to the fullest.

2. USER FLOW

- User flow provides the sequence of steps of how a user can effectively use the app in order to solve his/her problem.
- It focuses on how the characters/personas of the narrative will follow a sequence of steps to achieve their goal through our app "Resting Panda"

USER FLOW

Aman started searching for an app to get help in his treatment.

He downloaded the app and went on looking forward it

He takes a deep breath as instructed by the app.

NEXT PAGE

He went on to see most of the options useful for him like meditation, tracking sleep factors, motivational interface, etc.

Different features like meditation, tracking sleep factors, motivational interface, etc. are suggested to him

He found the app interesting and decided to study using study music side by side .

He found out that he studied for longer duration than he usually does.

He used the available features the same night before and while sleeping after seeing its benefits.

He got to see the results in the morning and found his condition to get improved.

Rest of the day, he spent his time in being productive and got successful to as mind was calm and focused.

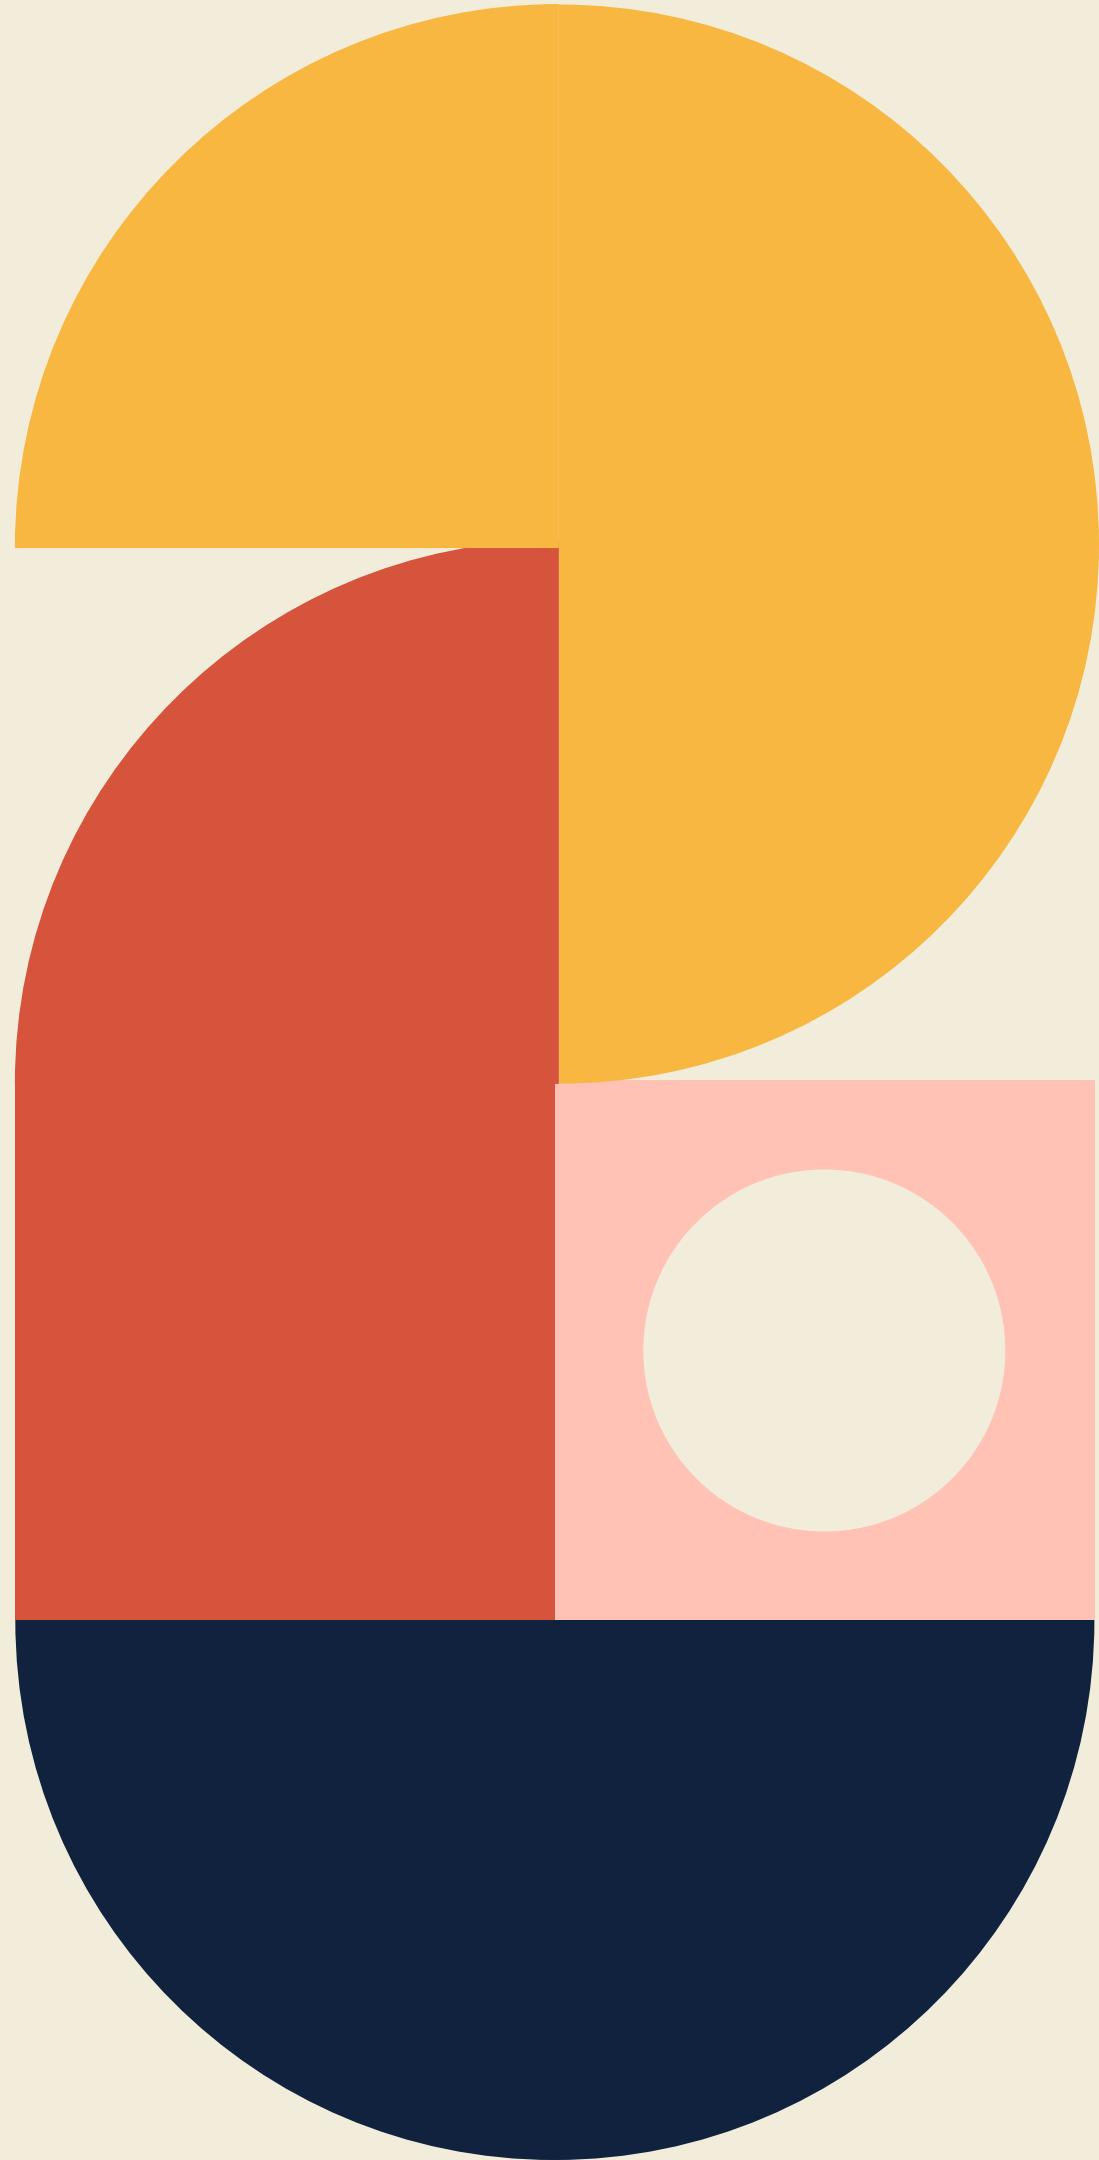

He told his psychiatrist about the same and was advised to use it regularly to avoid current or any further complication.

He promised to work upon and improve as found out that meditation made his mind calm and sleep factors were tracked.
